THE JESUS LETTERS

In what may be the most astonishing and inspirational words written since the revelations in the Bible, a Connecticut woman has published a book of 80 handwritten letters ... dictated to her by Jesus Christ! The book was communicated by a process known as inspirational writing. Self identified as Jesus, and considered to be the Biblical Jesus of Nazareth, the entity dictated a series of 1 pg letters on such contemporary topics as the energy crisis, abortion, suicide, drugs, divorce, adoption and self healing. (A second book entitled Your Healing Spirit deals with the process of self healing).

Endorsed by Elizabeth Kubler-Ross, Norman Vincent Peale, Marcus Bach and other such authorities. Lines from the book include, "you are not your brother's keeper... you are your brother". Other such lines update the biblical text.

THE JESUS LETTERS \$7.95 YOUR HEALING SPIRIT \$7.95
BOTH BOOKS JUST \$14.50
